

Safety Connection for the Dental Practice or Lab

Stay Connected to Protect Your Workers, Patients & Liability

Get your health & safety compliance questions answered with this service while staying connected to the latest health & safety news affecting your dental practice or lab. The Safety Connection service is designed to provide support with your Health & Safety Program and compliance with OSHA Standards as well as CDC guidelines.

Keeping up with OSHA regulatory changes and how they affect your dental business can be daunting. Let SafeLink do all the research for you so you can focus on what you do best! Stay connected to regulatory changes, updates, and news affecting your Safety Program with this subscription service. Contact SafeLink today to subscribe.

Safety Connection Benefits

- **Consulting**—Access to SafeLink consultants via email or phone should you need advice pertaining to health and safety.
- **OSHA Assistance**—Assistance in responding to OSHA should you be contacted or visited by the agency.
- **Updates**—Periodic safety news and OSHA regulatory updates affecting the dental industry sent via email, plus articles and tips to assist with your safety program.
- **Online Courses**—Access to on-demand safety-topic training available anytime with CE credit. SafeLink Consulting is an [AGD Approved PACE Program Provider](#) for FAGD/MAGD credit. Courses also offer NBC Regulatory Standards credit and FL Board of Dentistry / CE Broker credit.

Service Terms

Service is billed quarterly or annually and requires a minimum one year initial commitment. Additional consulting fees may apply for assistance with an OSHA inquiry & response based on the project scope.
