

HEALTH & SAFETY TRAINING

CUSTOMIZED FOR YOUR STAFF NEEDS

This employee training assists with **OSHA compliance, CDC Guidelines, Infection Control and HIPAA Review**. Get access to training all year long for annual refresher training, new hire training, when new hazards are introduced into the workplace, or when employees are working with new hazards. Includes OSHA-required written training documentation, safety consulting with training Q&A, plus CE credit if needed. Available in three formats.

ONLINE VIDEO

- Accessible any time you need it
- View recorded training online at your own pace—1 year access
- Train individual employees, especially those with different work schedules
- Useful in a team training or even when a gathering is not feasible

LIVE ONSITE

- Most collaborative approach
- Interactive group setting with live presenter/facilitator
- Assistance in completing required testing and training documents if needed
- Includes online video for 1 year

LIVE VIRTUAL

- Economical solution for an interactive live presentation
- Delivered in a webinar format for a group setting
- Includes recording of live webinar accessible online for 1 year

“Thank you for such a great safety presentation...The move to a virtual presentation was flawless. Our staff obviously missed having an in-person presenter but you did a perfect job. Also kudos to the SafeLink team for a high quality presentation...Best ever! We appreciate your team and thank you for keeping us on track to being a safe work place!”

Lisa, Dental Lab Administrator
