HIPAA Review for the Dental Laboratory

We Offer Best Solutions

Our HIPAA Review helps dental laboratories clearly understand and confirm how HIPAA applies to their unique operations.

Our Services

HIPAA Awareness Online Training

We start with a clear overview of privacy and security rules, then dive into targeted training with an on-demand module and awareness video made for dental labs.

Gap Analysis Review

Our process includes a thorough gap analysis, highlighting strengths and pinpointing areas for improvement.

Privacy & Security Risks Review

We'll review your privacy and security risks, assess your current safeguards, and examine your documentation to ensure everything meets federal requirements.

Why Choose Us

- Our personalized approach designed for your unique business.
- Gain clarity on how privacy and security rules impact your business model.
- Enhance knowledge of patient data protection obligations specific to dental labs.
- With SafeLink, you'll empower your team, reduce risk exposure, and elevate your internal policies.
- Complete the review remotely in just one to two days and gain peace of mind knowing your lab is protected and compliant.
